The new guidelines enhance instructions to surveyors on how to evaluate compliance with areas such as resident choices about daily schedule, (including when to get up, go to bed, eat, and bathe) visitation issues, homelike environment, food procurement, and expand significantly on guidance related to lighting.

This is a unique, valuable and timely opportunity to hear directly from CMS Division of Nursing Homes Deputy Director, Karen Schoeneman, MPA, who developed, wrote, and oversees the enforcement of these new guidelines. She will provide participants with the background, intent and implications of the new guidelines. She will be joined by Debra Swinton-Spears, MS, Nurse Consultant with CMS Division of Nursing Homes, who authored the food procurement revisions.

Join MC5 members in your area for a **FREE** group viewing of the webinars. (\$55 for Administrators wanting CEs) Come network with other providers, surveyors and interested community members and learn about these changes.
